I want to take this opportunity to thank you and your firm for the exceptional work that was performed at our property in Hobe Sound, Florida.

As you know, we were concerned with a slight mold issue that developed at our home to a previous roof leak. We were also concerned with the type of action that needs to be performed to correct the action.

I want you to know that we were very impressed with our initial meeting where you determined the issue and how to correct the problem. When the work started, the individual that you assigned to our job was also exceptional. Hector Morales was extremely professional and most importantly extremely knowledgeable as to the actions he needed to take to correct the problem at our home.

I want you to know that we will certainly recommend your company to anyone we know; also feel free to use our name as a reference.

Please let Hector know how pleased we are and how much my wife and I appreciate his hard work, his hard work and his integrity.
